

## BRAND COLORS

WAI

WAI's visual identity is built on clarity, trust, and innovation.

Navy blue and orange create strength and energy, supported by a clean, modern aesthetic.

NAVY BLUE  
#0B1D3A

ORANGE  
#FF7A00

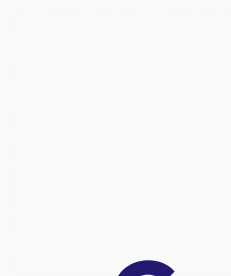

LIGHT BASE

WARM WHITE

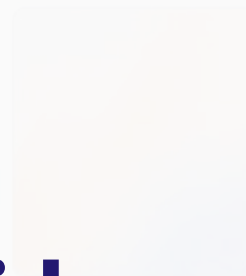

SOFT GRAY

LIGHT STONE

## BACKGROUND & TEXTURE OPTIONS

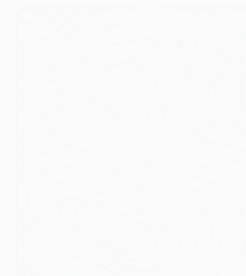

CLEAN WHITE  
Soft and clean background with maximum clarity.

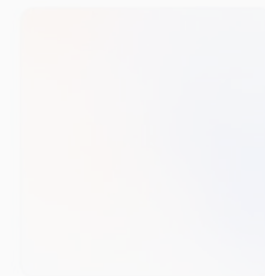

LIGHT GRADIENT  
Background with a soft light gradient.

TECH GRID  
Very subtle engineering grid for structure.

TOPOGRAPHY  
Soft topographic lines for energy & flow.

MESH GRADIENT  
Modern mesh glow for highlights.

## UI PRINCIPLES 2035

- Clarity First**  
Information is presented with maximum clarity.
- Connected Everything**  
All data, people and projects are interconnected.
- AI Everywhere**  
AI is not a feature, it's the operating system.
- Effortless Control**  
Powerful actions, minimal steps.
- Future Ready**  
Designed for tomorrow.

## TYPOGRAPHY

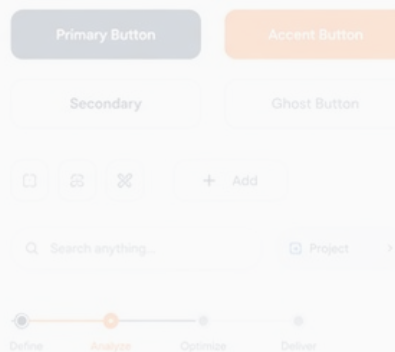

Aa

Satoshi Variable

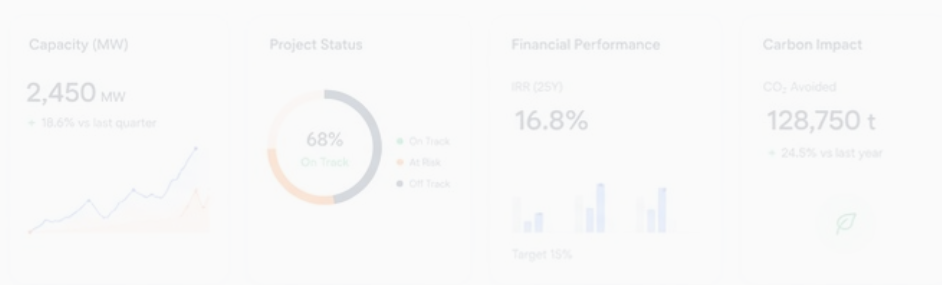

ABCDEFGHIJKLMNOPQRSTUVWXYZ  
abcdefghijklmnopqrstuvwxyz  
0123456789

Clean, modern and highly readable.  
Perfect for data and engineering interfaces.

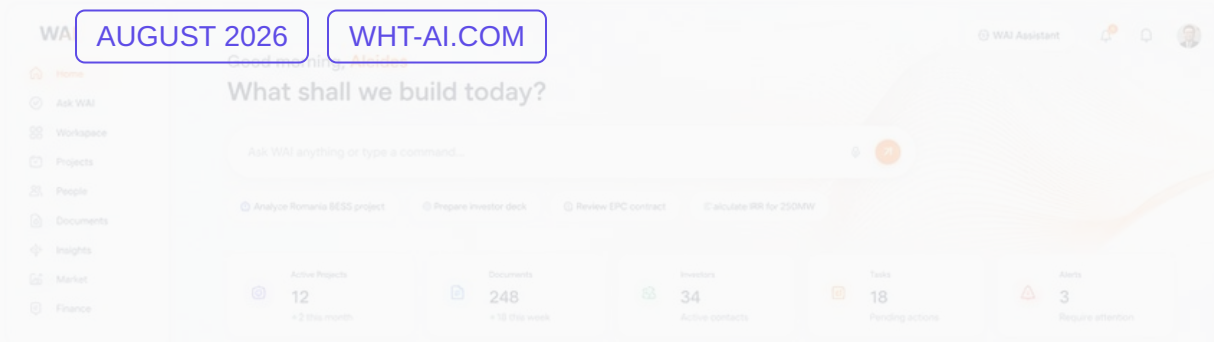

## UI ELEMENTS

## DATA VISUALIZATION STYLE

## APPLICATION EXAMPLE - WAI HOME DASHBOARD (2035 VISION)

## INTERFACE MOOD

Light  
Professional

Innovative  
Forward Thinking

Trustworthy  
Secure

AUGUST 2026

WHT-AI.COM

Everything WAI does today, what membership unlocks, and why it's worth joining

What You'll Learn

# Your guide to everything WAI

01

---

## What Is WAI

The AI OS concept & W-ENG routing

02

---

## Membership

What joining unlocks vs. free access

03

---

## Workspaces & Calculators

16 tools, 8 professional pillars

04

---

## Personal OS

26-module private life organizer

05

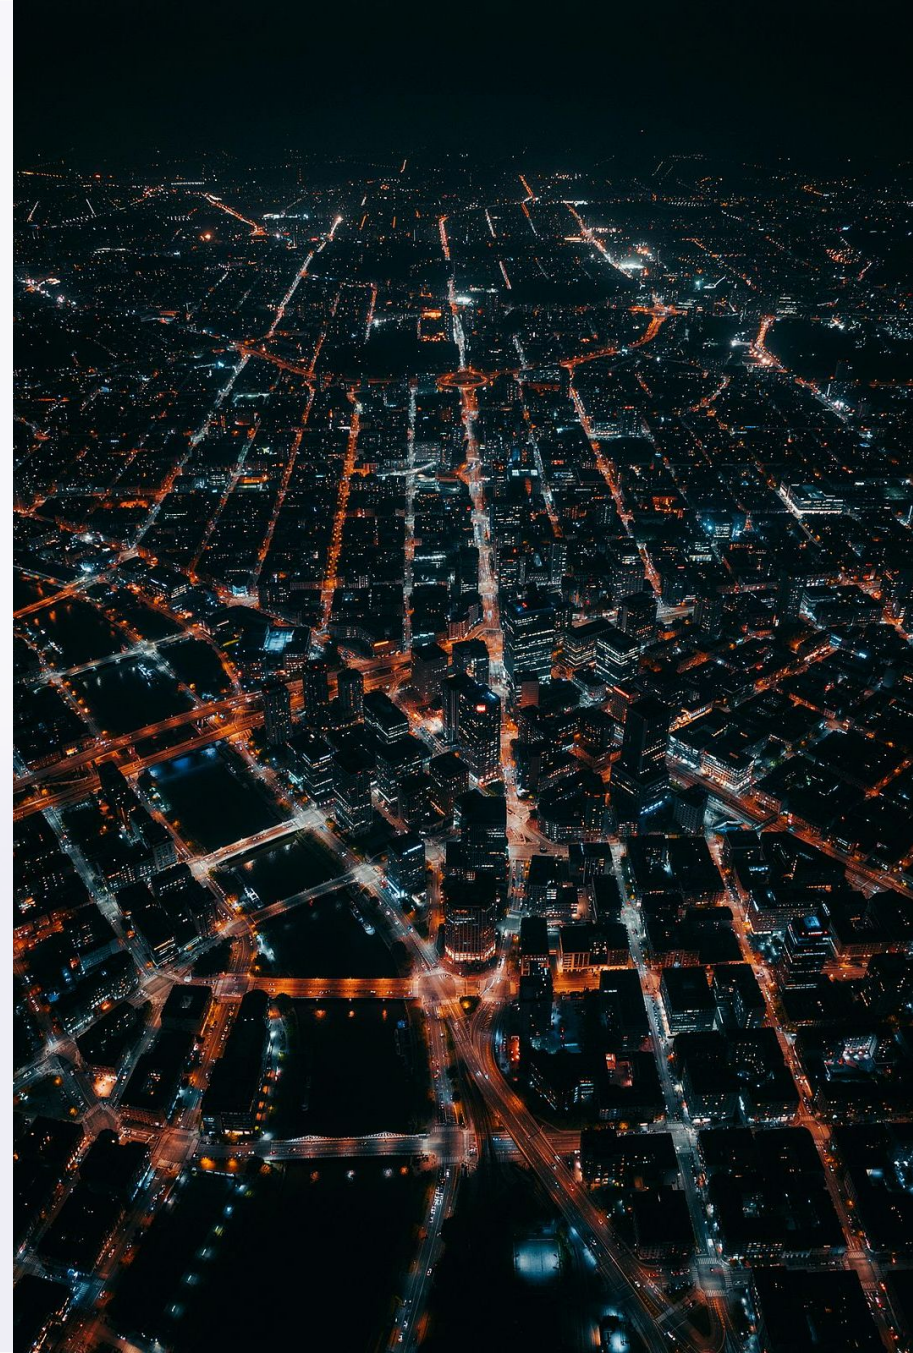

---

## Everything Else

Features, languages, themes & what's next

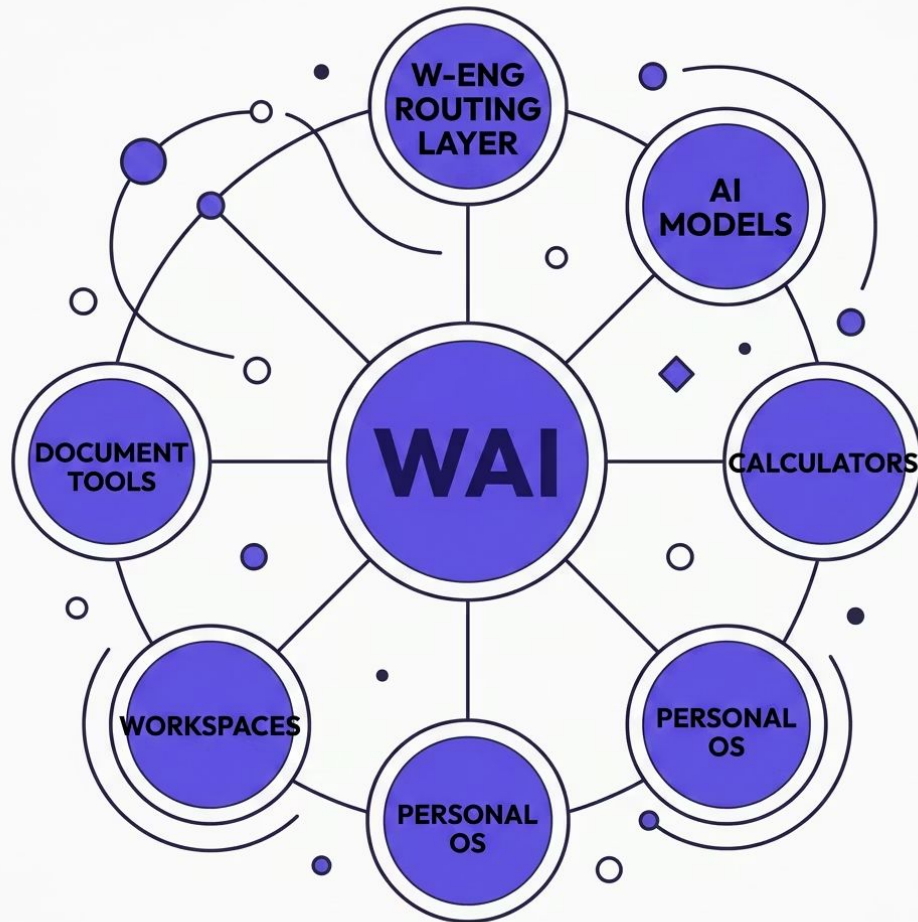

# WAI Is an AI Operating System

Not a single chatbot. One search box — powered by multiple engines, wrapped in real tools.

## Section 1 — What Is WAI

# One box. Many engines. Dozens of tools.

WAI routes every question through **W-ENG** — its own engine-selection layer — to whichever AI model fits the job.

→ **Ask**

One search box for everything

→ **Route**

W-ENG selects the best model

→ **Answer**

Real tools wrap the result

## Section 1 — What Is WAI

# Replace ten apps with one

### **Ask**

Any question, in any subject

### **Calculate**

Real deterministic math, not AI guesses

### **Plan**

Workspaces tuned to your domain

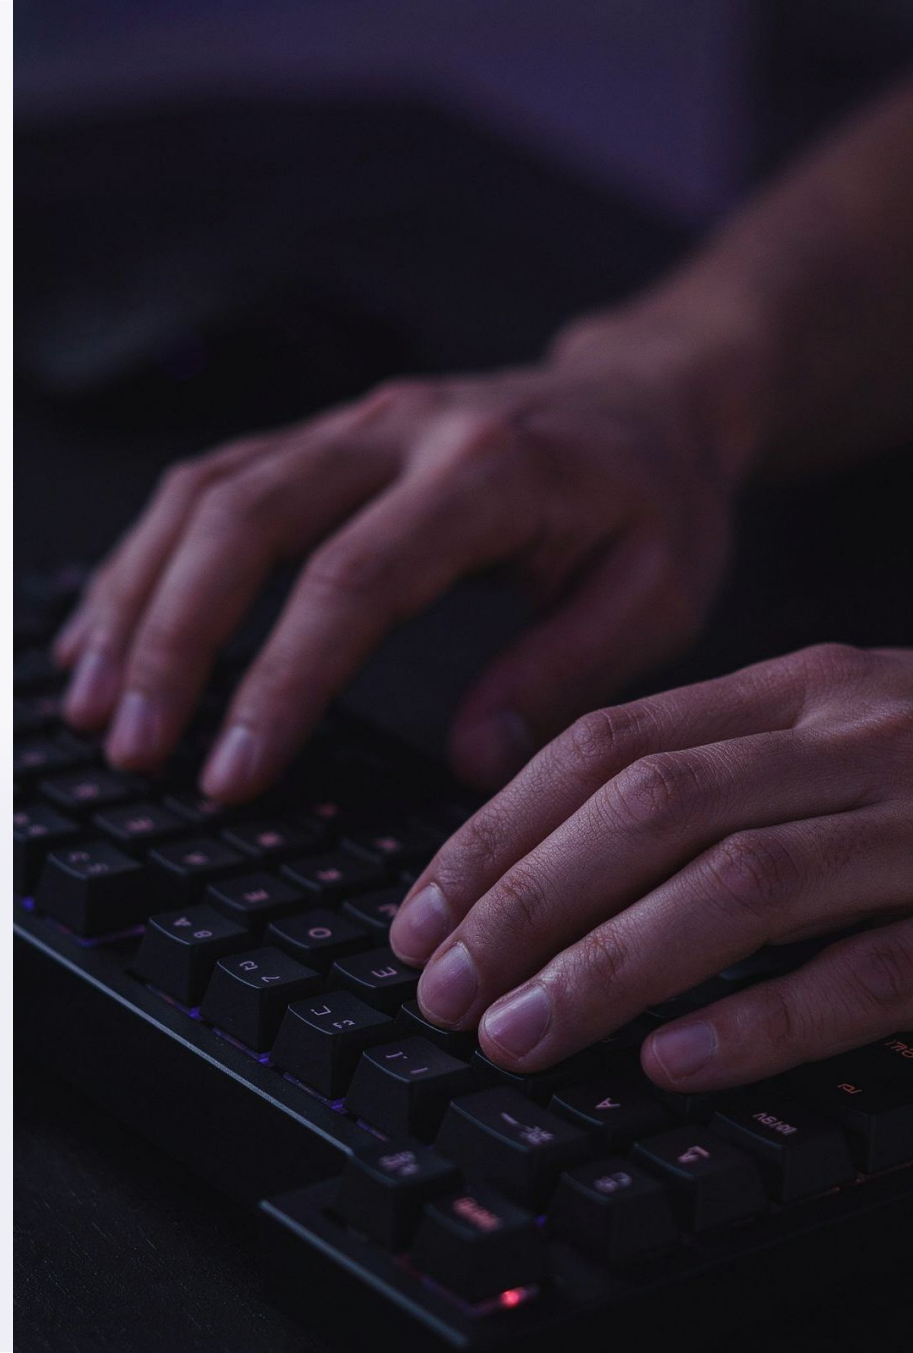

### **Organize**

Personal OS keeps your life structured

## Section 2 — Why Join WAI

# No login required — but membership changes everything

Guests always reach the free community model. Joining unlocks engines, tools, and automation.

# Six live engines, one smart router

Verified on the public **AI Registry** page — not a marketing list.

|                                                                                     |                                                                            |
|-------------------------------------------------------------------------------------|----------------------------------------------------------------------------|
|    | <b>Free Community Model</b><br>Llama 3.3 70B — always available, zero cost |
|    | <b>DeepSeek V4</b><br>Members only                                         |
|  | <b>GPT-5.6 Terra</b><br>Members only                                       |
|  | <b>Claude Sonnet 5</b><br>Members only                                     |
|  | <b>Gemini 3.1 Flash</b><br>Members only                                    |
|  | <b>Grok 4.5</b><br>Members only                                            |

📄 The AI Registry at [wht-ai.com/ai-registry](https://wht-ai.com/ai-registry) is auto-generated from WAI's live routing config — "live now" is never an overstatement.

## Section 2 — Membership

# What joining actually unlocks

### Full Engine Access

All 6 engines, auto-selected per task or chosen manually

### Personal OS

26-module private data system after 30-day free trial

### Every Workspace & Calculator

16 calculators + all professional workspaces at full quality

### Priority & Automation

Auto-Recharge, Pay-As-You-Go, one-click top-ups, pooled billing

## Section 3

# The Workspaces

Purpose-built subject-matter environments — browse them all from one hub.

## Section 3 — Everyday Workspaces

# Built for real life

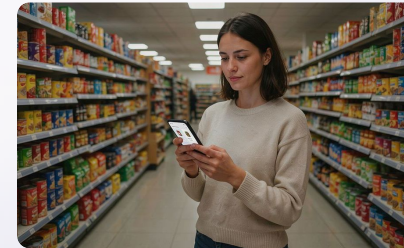

### HR & Career

CV builder, LinkedIn polish, interview prep, job-fit analysis

### Personal & Life

Health tracking, reading test results, travel planning, Tarot

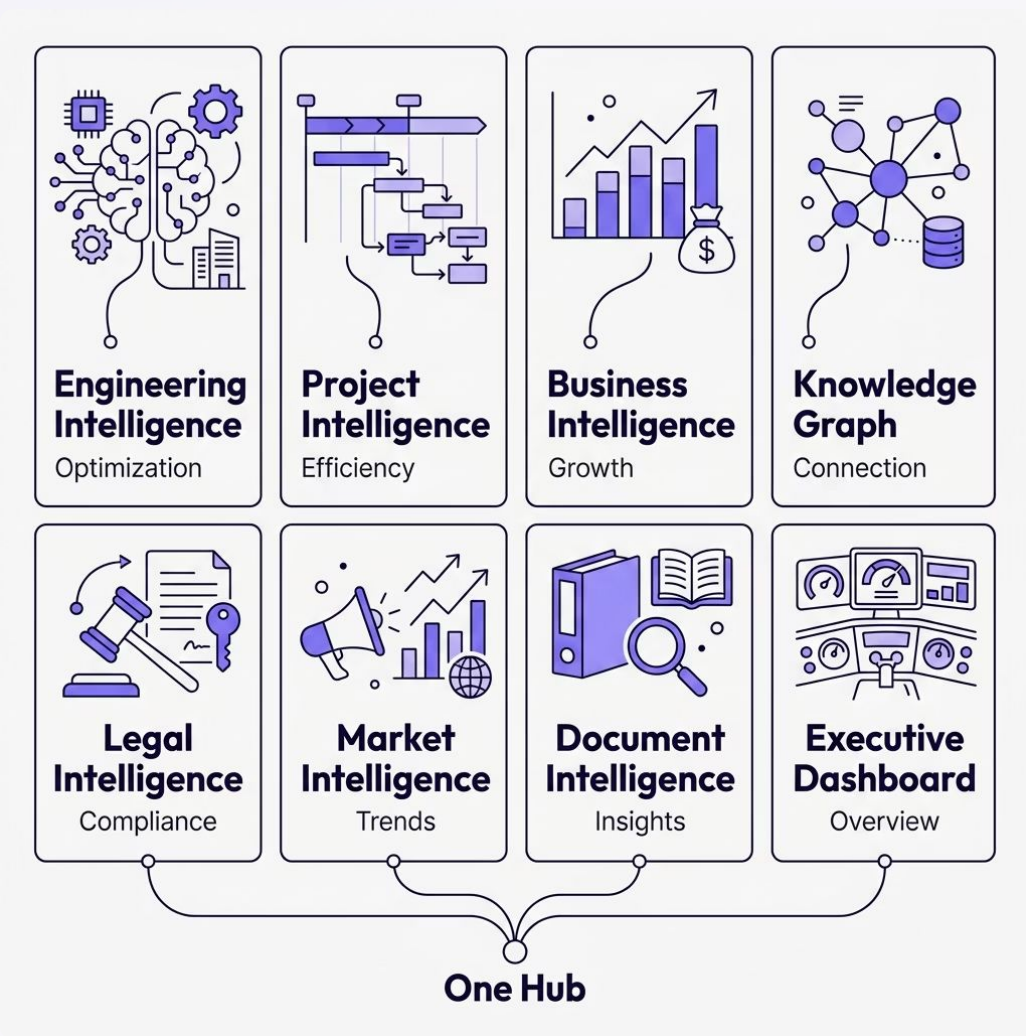

### Shopping & Offers

Price tracking, spec comparison, deal-finding

Section 3 — Professional Workspaces

# Eight specialist pillars for serious work

Each pillar is a chat panel tuned to its subject — ask in context, get a specialist-style answer.

- ❑ Legal Intelligence and HR & Career are the two with a real structured tool behind them — contract drafting and the CV Builder respectively.

## Section 3 — Professional Workspaces

# Engineering & Project

### Engineering Intelligence

Standards, design calculations, AI engineering copilot

### Project Intelligence

EPC / construction procurement, scheduling, cost & risk

### Document Intelligence

OCR, PDF & drawing analysis, proposal & presentation drafting

### Executive Dashboard

KPI framing, pipeline view, risk summary, AI executive brief

## Section 3 — Professional Workspaces

# Business, Legal & Intelligence

### **Business Intelligence**

CRM-style thinking, investor & partner research, opportunity scanning

### **Legal Intelligence**

NDA / SPA review, claims, due diligence, AI-assisted contract drafting

### **Market Intelligence**

Country reports, energy prices, tenders, regulations

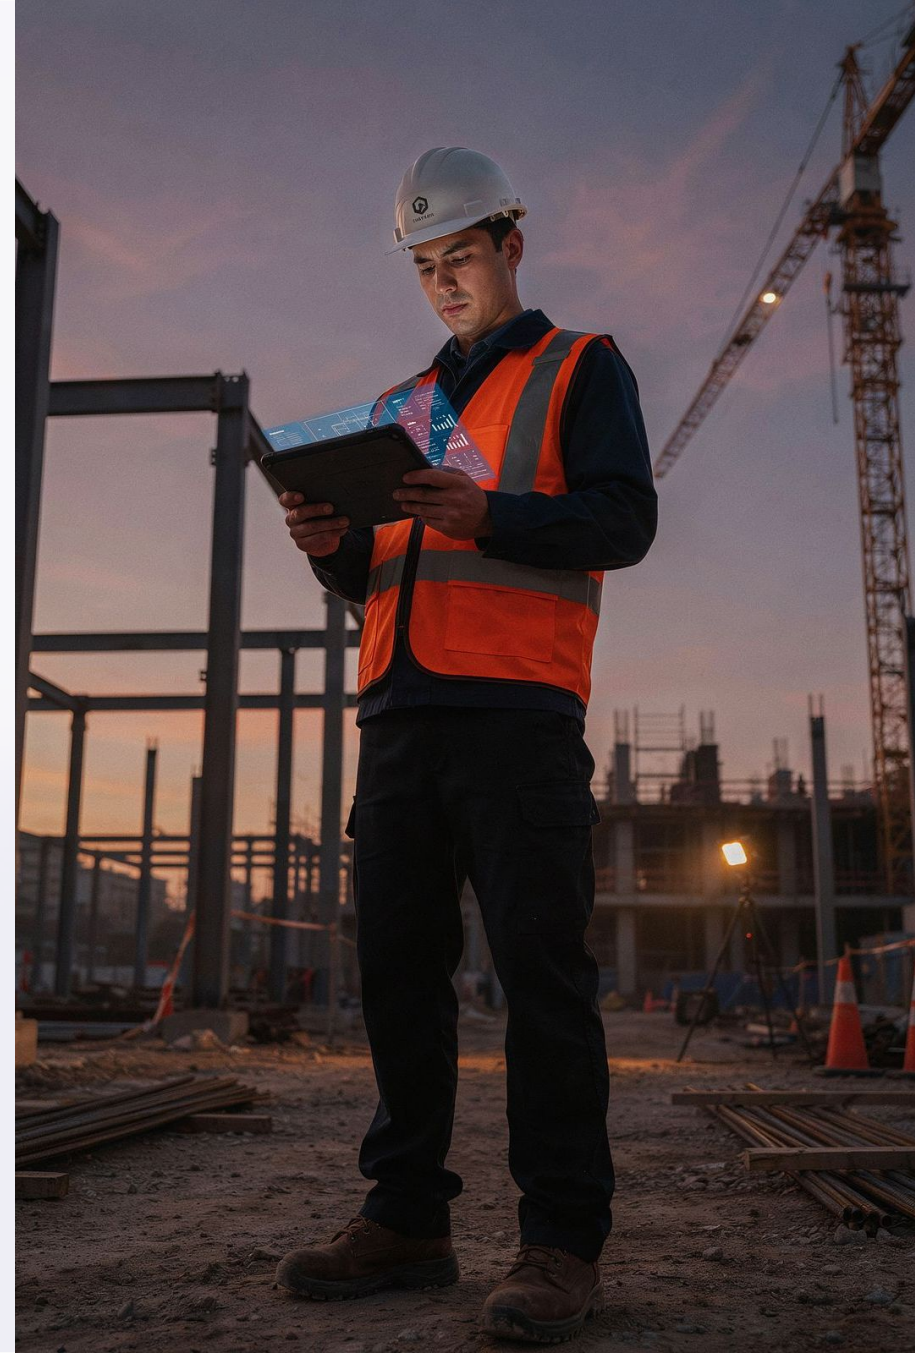

### **Knowledge Graph**

Cross-reference companies, people, projects & documents

## Section 4

# Calculators & Tools

16 real, deterministic calculators. Every number is computed with actual math  
— AI only adds narrative on top.

## Section 4 — Calculators

# Energy & Finance

### **LCOE Calculator**

Levelized cost of energy — NREL/SAM-style

### **ROI / NPV / Payback**

Return on investment, net present value, payback period

### **DSCR Calculator**

Debt service coverage ratio for project financing

### **Break-Even Analysis**

Break-even unit volume and revenue

## Section 4 — Calculators

# Battery & Solar

### Battery Storage Sizing

kWh / kW sizing from load and autonomy inputs

### BESS Revenue Stacking

Arbitrage + ancillary + capacity, degradation-adjusted

### Residential Solar + Battery

Panel & battery sizing with rough cost — PVWatts-style

### C&I BESS Peak-Shaving

Demand-charge savings from commercial battery peak-shaving

## Section 4 — Calculators

# People & Construction

### **Cost of Employment**

Fully-loaded employer cost including burden

### **Employee Turnover Cost**

Real cost of losing and replacing an employee

### **Construction Cost / BOQ**

Location-indexed \$/m<sup>2</sup> first-pass budget with BOQ breakdown

### **Carbon Offset (CO<sub>2</sub>)**

CO<sub>2</sub> avoided, using EPA-equivalent factors

## Section 4 — Calculators

# Personal Finance & Lifestyle

### Retirement Savings Projection

Compound-growth long-term savings

### Loan Amortization / Payoff

Full amortization schedule & early-payoff savings

### Nutrition Lookup

Calories, protein, carbs, fat, fiber — from a curated food database

### Tarot Card Draw

Genuine random draw from 78-card deck — AI narrates, never invents

## Section 4 — Beyond Calculators

# iNEED, CV Builder & Legal Drafting

### **iNEED**

Resolves your real location and gives an AI narrative of nearby services — free for guests too

### **CV / Resume Builder**

Structured form → clean, ATS-friendly PDF — deliberately unbranded

### **NDA / Contract Drafting**

Paste or attach a doc in Legal Intelligence for AI-assisted drafting — conversational, not template-locked

## Section 5

# Personal OS

Not a chat log. Real records, real fields, searchable and editable — your private life, organized.

## Section 5 — Personal OS

# Three core modules

### Identity

Who you are — the basics WAI permanently remembers about you

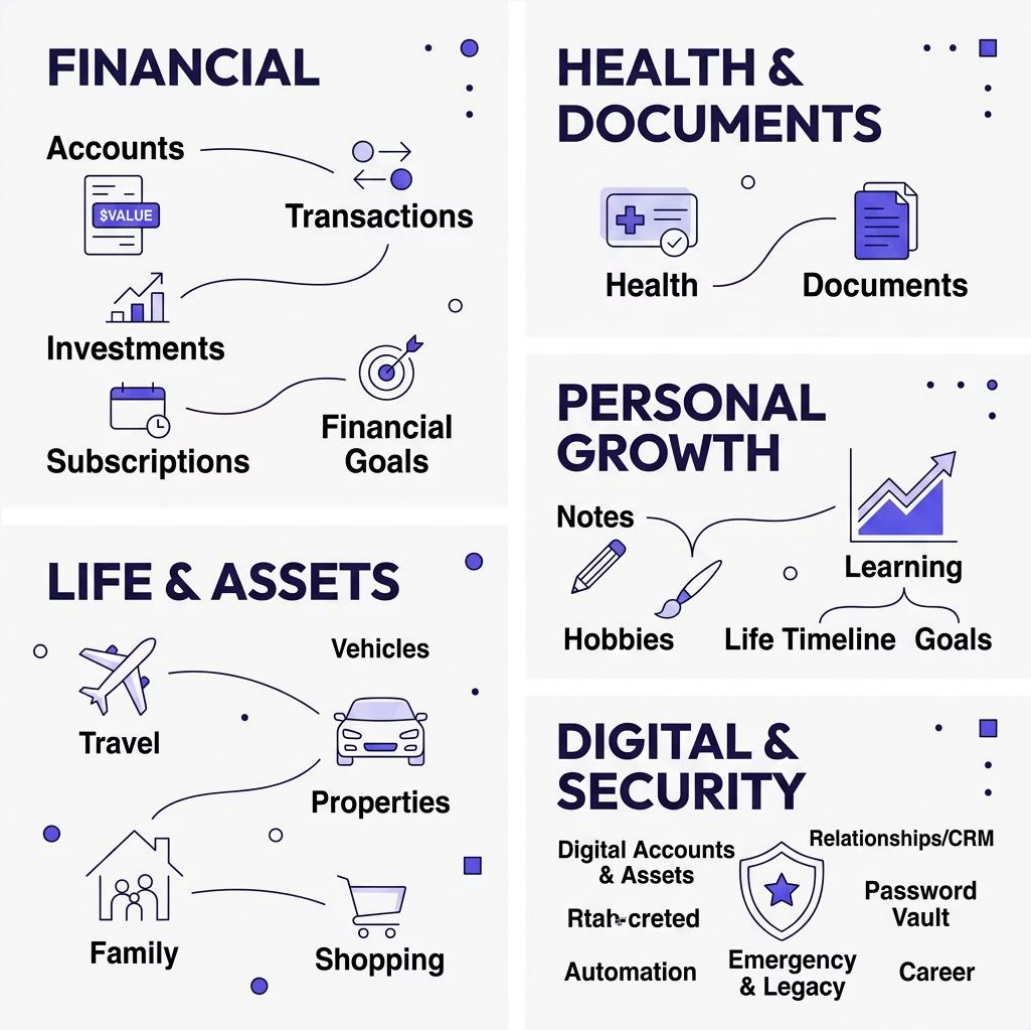

### AI Memory

Your preferences & personality — answers stay consistent over time

### Reminders

Things WAI proactively brings back up at the right moment

# 23 additional modules

Each module has its own purpose-built fields.

Example: **Health** tracks blood type, allergies, conditions, medications, doctor, and insurance — all in one place.

Included in every full Personal plan. Free 30-day trial before a plan is required.

## Section 6

# Company Registry

Register once in **Settings › My Company Registry** — tied permanently to your account.

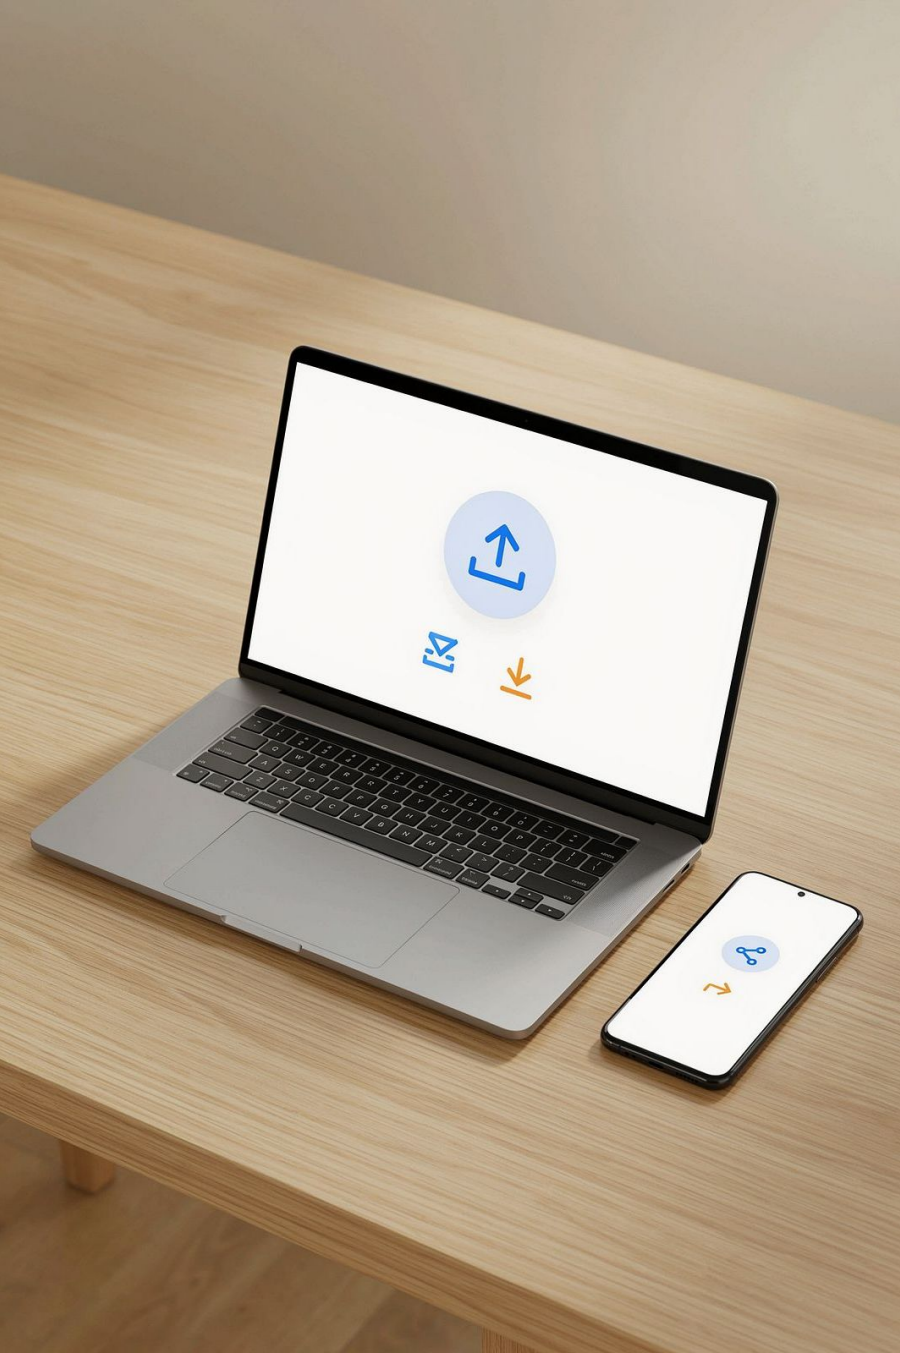

Unlocks Business-mode answers today and is the foundation for future team features.

### Manual Entry

Name, registration number, industry, country, city, website & contact details

### Quick Setup

WAI auto-guesses company name & website from your email domain — review and confirm in seconds

## Section 7

# Everything Else Included

Export, voice, languages, themes, safety, and more — built in for every member.

## Section 7 — Sharing & Output

# Export & share anywhere

### Branded PDF Export

Any AI result — one tap to a clean, shareable PDF

### One-tap Sharing

WhatsApp, Telegram, X, LinkedIn, and email — each with a real preview card

### Voice Input

Talk instead of type — browser-native speech recognition (Chromium-based)

### Read-Aloud

Any AI answer read back to you via browser text-to-speech

## Section 7 — Interface

# 25 languages. 5 visual themes.

### **25 Languages**

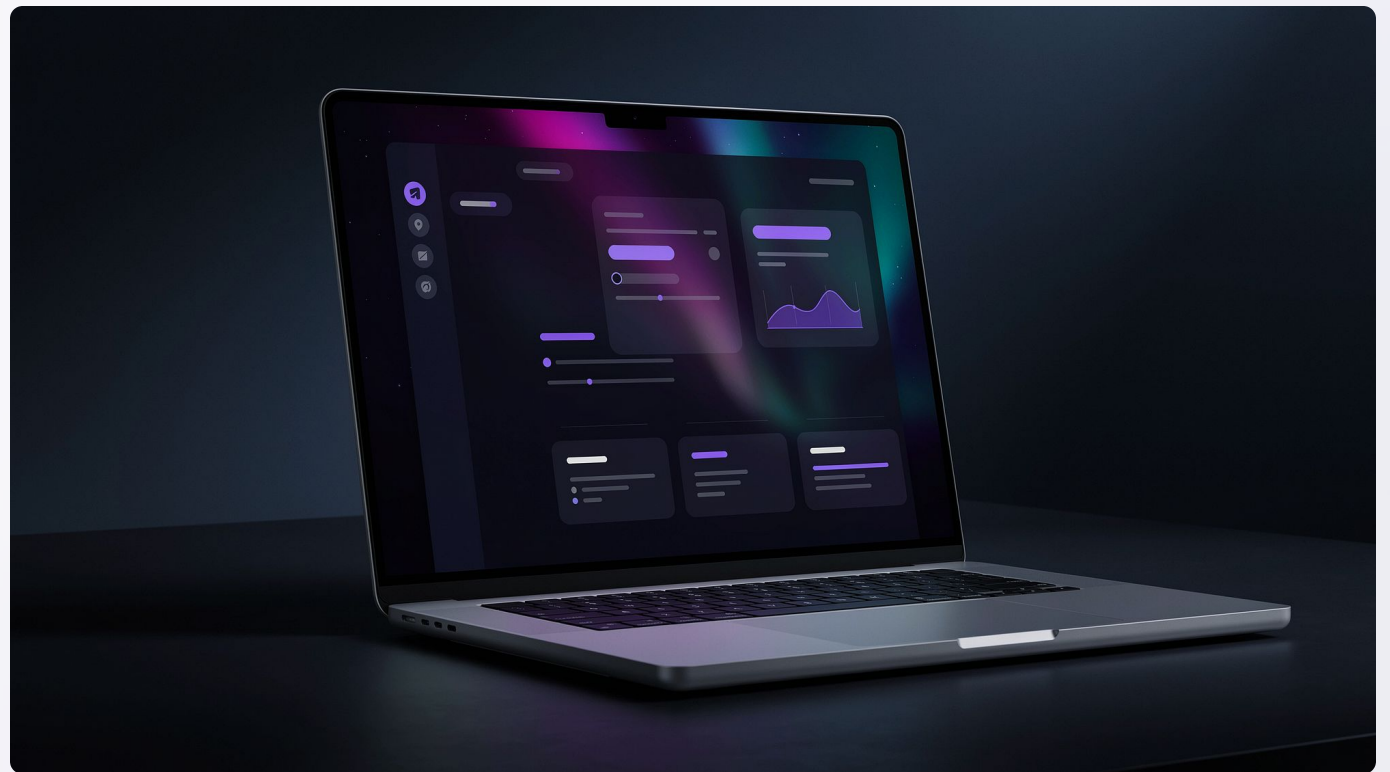

Auto-detected by location, manual override in profile

### **5 Themes**

Clean White, Aurora, Soft Glass, Arctic, Executive

### **Light / Dark / System**

Layered independently on top of any theme

## Section 7 — Safety & Control

# Safety, SOS & Your Own Key

### **Safety / SOS**

Priority-ordered emergency contacts, quick message templates, one-tap SOS with 5-second cancel. Email alerts only — SMS & push coming later.

### **Notifications**

In-app alerts for low balance, completed top-ups, and important announcements

### **Bring Your Own Key (BYOK)**

Connect your OpenRouter API key in Settings — your requests run on your key, no W\$ deducted

### **Always-Free Guest Access**

No login ever forced — guests and \$0-balance members always reach the free community model

## Section 8

# What's Coming Next

Shown honestly as "Soon" in the app — not billed, not built yet.

## Section 8 — Roadmap

# Agents & Marketplace

### **Agents**

Autonomous, multi-step AI agents that carry out a task on their own — not just one answer at a time

### **Marketplace**

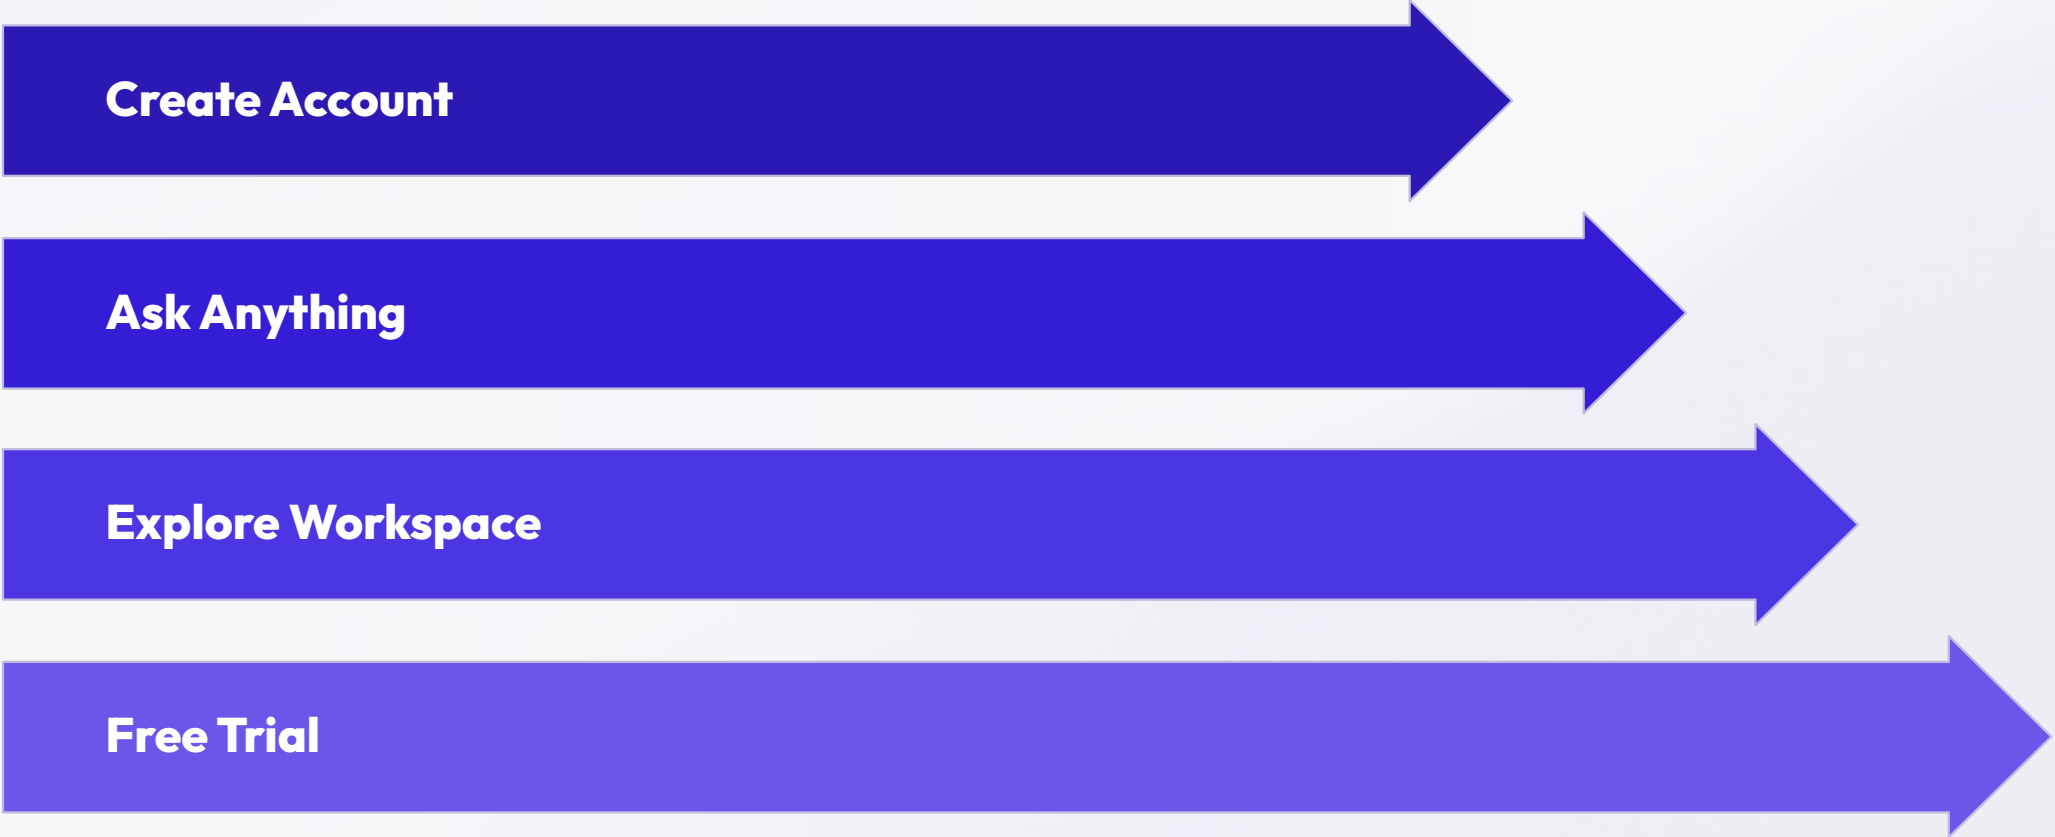

Third-party skills and modules —  
commission/payment model still being decided before launch

Have an idea? Submit it on the **Wishlist page** — "Build the future of WAI."

Public board with status tracking from *Open* through *Shipped*, plus a real contributor leaderboard.

## Section 9

# Getting Started in 5 Steps

**Create Account**

**Ask Anything**

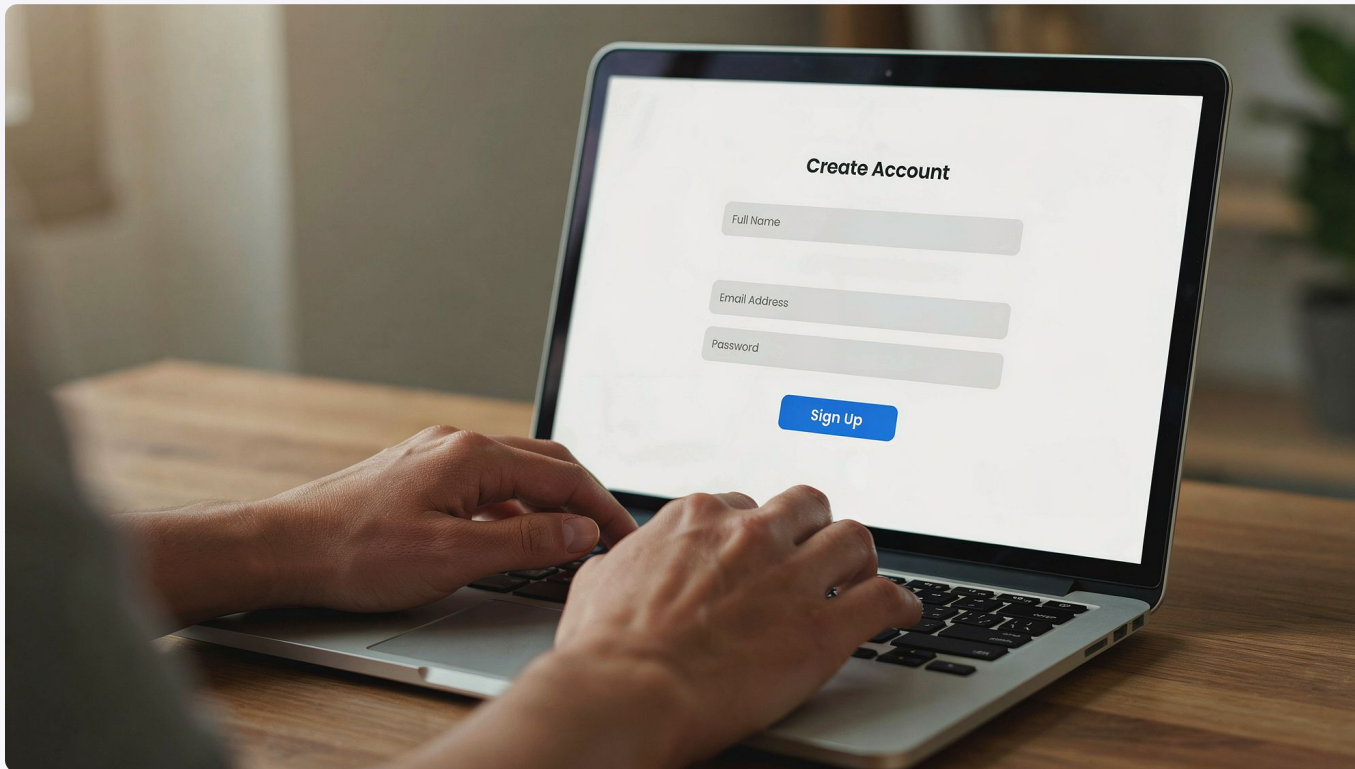

**Explore Workspace**

**Free Trial**

Check the Subscriptions page for a Launch Campaign discount before committing to a plan.

## Section 9 — Getting Started

# Step 1: Create a free account

**No credit card required.** Guests and \$0-balance members always get the free community model — no lock-in, no paywall to start.

- Visit [wht-ai.com](https://wht-ai.com)
- Sign up with email
- Start asking immediately

## Section 9 — Getting Started

# Step 2–3: Ask, explore, calculate

### 1 Ask anything

W-ENG automatically picks the best available engine — no model-switching required

### 2 Open a Workspace

Choose your subject matter pillar for specialist-style answers in context

### 3 Run a Calculator

Pick any of 16 real calculators for deterministic results with AI narrative

## Section 9 — Getting Started

# Step 4–5: Personal OS & your plan

### Try Personal OS free

30 days, no card — explore all 26 modules before committing to a plan

### Pick a plan

Visit [wht-ai.com/subscriptions](https://wht-ai.com/subscriptions) — check for a Launch Campaign discount first

## Section 10 — Subscriptions

# Plans & Pricing

### W\$ Balance

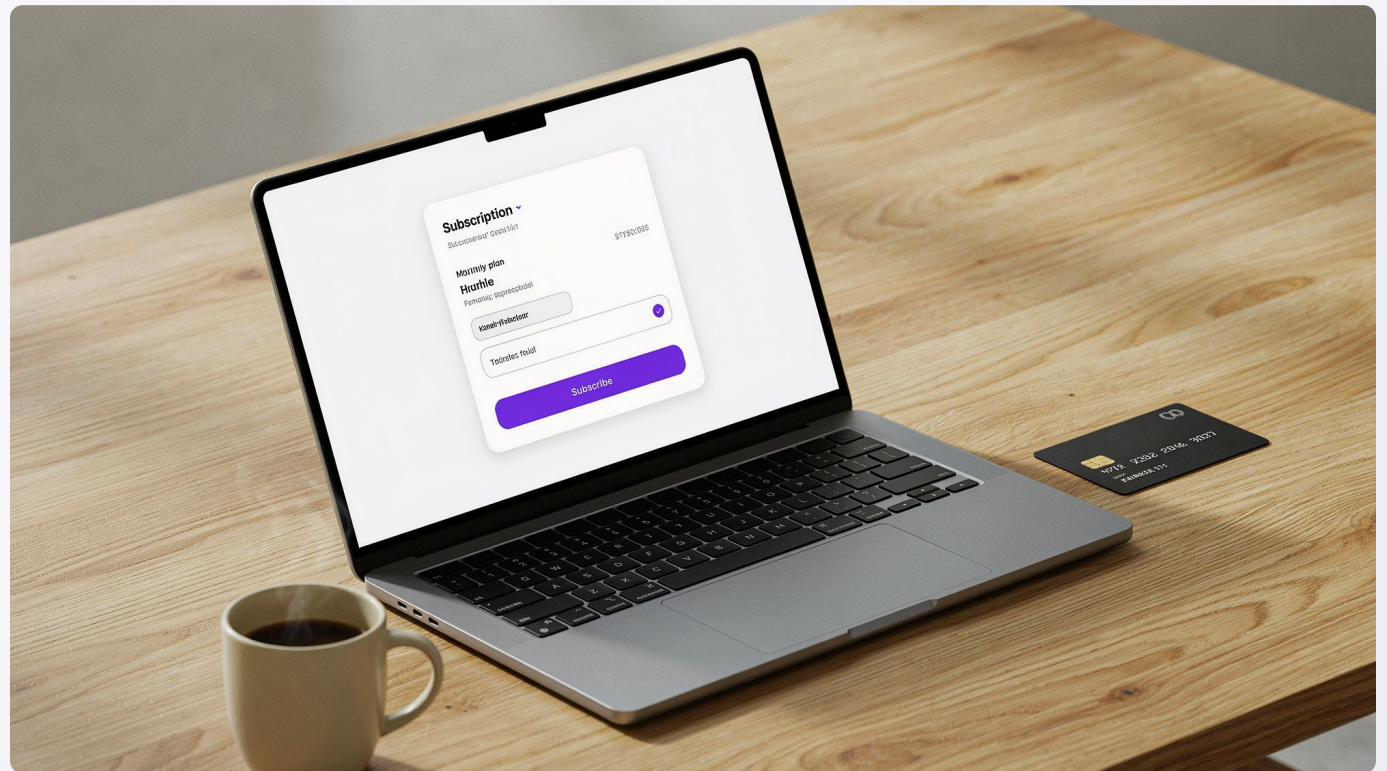

Pay-As-You-Go — fund a balance, top up anytime with one click

### Auto-Recharge

Balance tops itself up automatically — no manual steps

### Team / Pooled Billing

Shared W\$ balance across a team, managed centrally

📄 See current plans & pricing at [wht-ai.com/subscriptions](https://wht-ai.com/subscriptions)
